

The Howell to Sports Booth is #410

If you are planning to attend the DAANJ conference next week please stop by our booth and say hello. We will be giving away one of our DVA vision rings until they run out.

In addition, we are offering a special on our scoreboards. If you are considering a new scoreboard for next year, I would love to speak with you.

Thanks and we look forward to seeing you next week in Atlantic City.

Electro-Mech Scoreboards

Electro-Mech's roots begin in Wrightsville, GA and go back to 1963. Decade after decade, they've taken a small town common sense approach to building a business with a reputation for stability, service, and simplicity. Electro-Mech scoreboards reflect this attitude. We take pride in knowing that, in a subtle way, we are helping promote the character building aspects of athletic competition. It takes discipline and dedication, respect for your coaches and teammates, and a good dose of hard work to put points on a scoreboard. At Electro-Mech, we want to do our part to bring out the good sport in everyone!

Whether you are considering a **football, basketball, soccer or baseball/softball scoreboard**, we have the right product for you!

Take a look below at some of our installs in NJ. Hope to meet you next week!
